

3D Helicopter Flying (The Modelers World Series)

3-D model helicopter flying is an extremely difficult and challenging aspect of RC model helicopter flight. When approached correctly, 3-D flying can provide what has to be one of the most ultimate personal rewards and offers complete satisfaction at every stage of the learning curve. This does however dictate that many new skills have to be learnt and many aspects of model helicopter flight must be completely understood. Without this, the chances of achieving a high level of success diminish rapidly. As such 3-D Helicopter Flying is aimed at existing model helicopter pilots who have a good grounding in conventional model helicopter flight and possess a clear determination to succeed.
