

Cindy Walters Snippet Sensations Soaring Eagle

The Soaring Eagle project uses a panel background technique. This means several panels of cloth cover the foundation fabric to create the background landscape. You can omit the panel fabrics all together and use one beautiful piece of fabric for the foundations. The foundation would then be exposed as the background behind the eagle. To create the eagle, use the silhouette pattern provided for the body, wings, tail, and head of the eagle. You will create the actual eagle with snippets of fabric placed on the silhouette shapes, consulting the illustrations for snippet shapes and placement.
