DIY Collection: Ultimate Guide On Creating Wooden And Metal Projects And Growing Your Garden. Make Your Place The Best To Live In! Book#1: Woodworking For Beginners Learn To Create Simple But Brilliant Woodworks For Your Home And Backyard Woodworking is not something that you should shy away from, and you will realize that after this book reveals the amazing world of woodworking to you. You have probably seen this kind of projects in other peoples houses and were amazed by their simplicity and appealing look. The beauty of woodworking projects is not only in this feeling of satisfaction and pride after a completed project but also in the fact that such works give your home a special and unique aspect. Beginners, dont think that you will need a ton of professional equipment to turn those woodworking ideas into reality. The book will teach you the basic woodworking skills and will introduce you to the basic tools that will help you along the way. Besides drilling and cutting, you will master sanding as well. The tools that you will need for most of your beginner projects, such as drills, saws, and sanders, will also be presented to you, together with the tips on how and when to use each of these. This new knowledge will give you the confidence to tackle the projects presented in the book. The instructions are easy to follow and you also get some tips on how to successfully finish your project. Book#2: Blacksmithing Learn to Forge and Master The Art Of Modern And Traditional Blacksmithing And Become A Real Craftsman We all have heard of blacksmithing but have never had a chance to really get a deeper understanding of what it entails. It is actually an interesting form of art but one that isnt practiced by many. The truth is that it offers one an opportunity to express their creativity in the best way possible. This book is the best

guide for you as it will take you through all the basics of blacksmithing and more of what you need to know. Every chapter has a specific goal and I believe the book will offer the best learning ground whether you are a beginner or just a blacksmith who needs to learn more. It is therefore my hope that you will easily gain much if not all of what you needed to know. Book#3: Gardening Practical Guide to Growing Organic Fruit and Vegetables in Your Backyard Garden Hello, everyone.
