

Letecky pozemny personal (Slovak Edition)

Kniha je zameraná na Pozemnú leteckú službu. Pojednáva o období rokov 1974 až 1976 a o prostredí 1. leteckého školného pluku v Československej socialistickej republike v Prerove a v Piestanoch. Obsahuje všetko o príprave lietadiel Aero L-29 Delfin na lietanie, o ich ošetrovaní a o všetkom čo s pozemnou prípravou lietadiel súvisí. Je písaná z pohľadu mechanika a technika Inžinierske leteckej služby. Prvá časť textu knihy je o pozemných prípravách lietadiel, vrátane revízií, o ich prípravách pri letovej prevádzke. Je o všetkom, čo táto práca obnáša a tiež o organizačných aspektoch. Kniha sa okrajovo zmienuje o inštruktoroch lietania, o výcviku poslucháčov Vysokého vojenského leteckého školy SNP v Kosiciach a o zahraničných žiakoch lietania. Aj v týchto fázach je kniha orientovaná na prácu pozemného personálu. Prednosť je daná odbornosťou drak-motor. Druhá časť je o ostatných súvislostiach života u letky pri práci i v dobe voľna. Kniha vyplní medzeru nedostatku literatúry o pozemnej leteckej službe.
