

Beware! Vertical Integration: Organized crime, financial bullying, financial abuse: stolen identity, cyber hacking, life skills

I always wanted to start my own business, knowing that the business world can be very dirty. How dirty, I did not know. I got divorced in 2001 and moved to the Cape Province in South Africa. My five year old daughter and I moved into a nice townhouse near the sea and I found a half day job to be there for my daughter for the first few months. After six months my money started running out and I got a job at an estate agency. The shopping centres gardens where the estate agency was situated, were in a shocking state and I quoted for the contract to do the maintenance of the gardens. The operations manager of the shopping centre must have had faith in me because I got the contract. A friend of mine was also doing garden services and helped me a lot in the beginning. I started the business feeling very positive, not knowing what was waiting for me. Soon a group of people were after my contracts and started terrorizing me..... Please read my story and save me from losing everything due to organized crime.
