

If the average tenure in a job varies from two to five years, then most people will have between 9 and 21 jobs during their career, between the ages of 21 and 65. Therefore, the chances of meeting a few bastards along the way are fairly high, who can make your life hell. This is a straight forward, but at times funny how-to book, written in a breezy style designed to engage the many people in distress. Its about how to survive in a hostile environment and move towards a more fulfilling work life, when your boss takes a dislike to you or treats you badly and threatens your job. Learn about the nature of bosses in business. Learn about your own ego, the helpful use of language, and some practical techniques to help you remain calm. Use the unique Serengeti Model to decode which species of animal your Boss is. Then find out how you can deal with him/her in the best way, to help keep you safe from harm.
