

In Search of In-Visibility

This fable, for use in team-building seminars, illustrates the unanticipated potential available to an organization if its individual members learn to accept and value differences, building a holistic organizational synergy through utilization of individual strengths and abilities. Two of the characters are from families burdened by long-standing jealousy and rivalry. Two other characters are in positions of immense power, but are reluctant to share the facts behind their current situation. All are focused upon one ultimate possession, a prize of mystic proportions. In the whimsical spirit of *Fish* and *Who Moved My Cheese*, participants follow the characters in their struggle, and share in their attempt to seize the prize of greatest value...a treasure they can leverage to success in their personal and professional lives.
