

## The New Bottom Line: Bringing Heart & Soul to Business

Are people opposing the integration of spiritual values and universal principles in our workplaces because they are confusing spirituality with organized religion? This question inspired an open debate between management guru Tom Peters and the CEO of a publicly-traded corporation which was the genesis for this book. A collection of viewpoints, the books contributors include best-selling New Age authors Thomas Moore and Angeles Arrien, management authors Ken Blanchard and Ian Mitroff, The Body Shop founder and CEO Anita Roddick, and many more. It also includes a foreword by William George, Chairman and CEO of Medtronic, Inc.
