

Lullabies From Hell

Welcome to one of the most disturbing minds of Japanese manga! Hideshi Hino has long been considered a master of the horror manga genre since his coming out in the late 70s. And the four stories in *Lullabies From Hell* will show you how demented the man can be. The self-titled first tome introduces you to the author himself, a horror quasi-biography of sorts. The second story tells of Hino's having willed his pregnant wife into birthing a horrible, planet-devastating reptile baby that eats puppies and children! And you can imagine how the stories progress from there.
