

## Model Image

In contemporary society we live in a world that is saturated with images that present subconscious desire. Every day we are presented with an ideal body image of both men and women in various media, including most recently, the Internet. The Internet has created a platform where images can be consumed and ideas shared without control or context. No where is this more apparent than in chat rooms used by sufferers of eating disorders. The online chat rooms have thousands of members but are these sites and images helping the individuals or aiding their disease?
