

Strategies for Policy Reform, Volume 2

Engaging Entrepreneurs in Democratic Governance: Filled with case studies on successful reform approaches throughout the world, this book provides guidance for any organization seeking to influence economic policy. This book follows on the success of the 2007 CIPE publication Strategies for Policy Reform: Experiences from Around the World. Both publications will be available for download and purchase at www.cipe.org in September 2010. This volume distills from CIPE's experience key practical lessons on how to implement reform on the ground, and will be invaluable to development practitioners everywhere. Francis Fukuyama, Olivier Nomellini Senior Fellow at the Freeman Spogli Institute for International Studies, Stanford University
