

Custom Woven Interiors Bringing color and design home with Rep weave

As a designer, Marshall takes a contemporary approach to traditional designs. In this beautifully photographed volume, she provides insight into her own design process and gives tips for translating inspiration into textiles, designing for Rep weave, and using color and pattern to transform environments. In Custom Woven Interiors, Marshall presents 18 project sets of related items for every room in the home. All of the items can be reproduced from her weaver drafts and detailed instructions. Weavers at any level, designers, and anyone interested in contemporary fabrics for interiors will find this book a valuable resource.
