Poole Reviews, Discussion A T-antenna, T-aerial, flat-top antenna, or top-hat antenna is a vertically polarized simple wire. The top load wire can increase radiated power by 2 to 4 times (3 to 6 dB) for a given T antennas are typically used at low frequencies where it is not practical to build a quarter-wave vertical antenna because of its height, and CHAPTER 3: ANTENNAS Buy Practical Wire Antennas: v. 2 by I.D.
