

Redeeming Relevance in the book of Deuteronomy continues Rabbi Francis Nataf's innovative analysis of the five books of the biblical Torah. A fresh look at the final and most challenging of the five books, this volume focuses on topics such as mortality, personal vision, identity, humanity, and religion and state. Rabbi Francis Nataf shows his talent for discovering previously untouched facets of the Torah and connecting them to Jewish tradition. The clarity of the insights and patterns presented shows how a personal analysis of the biblical text can lead to living a more spiritually rewarding and ethically correct life.
