

Univetica: Compelling Change

While the airwaves are choked with news of social and environmental crises and divisive ideologies, pundits and politicians offer ineffective and sometimes disingenuous solutions that build on what divides us. In a time of great upheaval, we need, more than ever, a better way forward. A way to a thriving global community. Univetica: Compelling Change offers a fresh, intelligent approach to life and the difficult challenges facing all of us. It is only when the global community is working at its full potential that we, as individuals, can hope to realize our own. Univetica is meant to foster a new conversation for all of us who embrace change and are compelled to stimulate human progress.
